~~SECRET~~

10. Is this system/project the subject of an OMB-300 budget submission?

NO

YES **If yes, please provide the date and name or title of the OMB submission:**

11. Does the system conduct data mining as defined in Section 804 of the Implementing Recommendations of the 9/11 Commission Act of 2007, P.L. 110-53?

NO

YES **If yes, please describe the data mining function:**

12. Is this a national security system (as determined by the SecD)?

NO  YES

13. Status of System/ Project:

This is a new system/ project in development. [If you checked this block, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

**II. EXISTING SYSTEMS / PROJECTS**

1. When was the system/project developed?

(S)

b1  
b7E

2. Has the system/project undergone any significant changes since April 17, 2003?

NO [If no, proceed to next question (II.3).]

YES If yes, indicate which of the following changes were involved (**mark all boxes that apply**):

A conversion from paper-based records to an electronic system.

A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

\_\_\_\_\_ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

\_\_\_\_\_ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

\_\_\_\_\_ A new method of authenticating the use of and access to information in identifiable form by members of the public.

\_\_\_\_\_ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

\_\_\_\_\_ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

\_\_\_\_\_ A change that results in a new use or disclosure of information in identifiable form.

\_\_\_\_\_ A change that results in new items of information in identifiable form being added into the system/project.

XX Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

\_\_\_\_\_ Other [**Provide brief explanation**]:

3. Does a PIA for this system/project already exist?

X  NO    \_\_\_\_\_ YES

If yes:

a. **Provide date/title of the PIA:**

b. Has the system/project undergone any significant changes since the PIA?

NO      YES

[The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

## I. INFORMATION ABOUT THE SYSTEM / PROJECT

### 1. General Description of System

The Albany Field Office (AL FO), Loose Media Kiosk (LMK) is a standalone computer that provides a controlled environment to examine and analyze file structure, size, and types of files stored on secondary storage devices, primarily Universal Serial Bus (USB) connection oriented devices. Security concepts are covered in the LMK System Security Plan. The LMK is internally owned and managed exclusively by the FBI.

The LMK is located in the Albany Field Office Computer Analysis and Response Team (CART) Laboratory.

Figure 1 Loose Media Kiosk

The system has no network connectivity.

b7E

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

NO

(Note: It is theoretically possible to open the files that are contained on the inserted media. However, there is no way to save the information in them, print their contents, or transfer the contents to another system.)

YES {If yes, please continue.}

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.

(Check all that apply.)

The information directly identifies specific individuals.

The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

The information can be used to distinguish or trace an individual's identity (i.e., it is linked or linkable to specific individuals).

**If you marked any of the above, proceed to Question 4.**

None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or consultants?

NO  YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

NO. {If no, skip to question 7.}

\_\_\_\_\_ YES. [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the subject of the information?

\_\_\_\_\_ NO [If no, proceed to question 7.]

\_\_\_\_\_ YES

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

\_\_\_\_\_ NO

\_\_\_\_\_ YES [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

\_\_\_\_\_ NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

\_\_\_\_\_ YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

\_\_\_\_\_ NO \_\_\_\_\_ YES If yes, check all that apply:

\_\_\_\_\_ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

\_\_\_\_\_ SSNs are necessary to identify FBI personnel in this internal administrative system.

\_\_\_\_\_ SSNs are important for other reasons. Describe:

\_\_\_\_\_ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

\_\_\_\_\_ It is not feasible for the system/project to provide special protection to SSNs. **Explain:**

8. Is the system operated by a contractor?

\_\_\_\_\_ No.

\_\_\_\_\_ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

\_\_\_\_\_ NO **If no, indicate reason; if C&A is pending, provide anticipated completion date:**

\_\_\_\_\_ YES **If yes, please indicate the following, if known:**

**Provide date of last C&A certification/re-certification:**

**Confidentiality: \_\_\_ Low \_\_\_ Moderate \_\_\_ High \_\_\_ Undefined**

**Integrity: \_\_\_ Low \_\_\_ Moderate \_\_\_ High \_\_\_ Undefined**

**Availability: \_\_\_ Low \_\_\_ Moderate \_\_\_ High \_\_\_ Undefined**

\_\_\_\_\_ Not applicable – this system is only paper-based.

10. Does the system conduct data mining as defined in Section 804 of the Implementing Recommendations of the 9/11 Commission Act of 2007, P.L. 110-53 (codified at 42 USC 2000ee-3)?

\_\_\_\_\_ NO

\_\_\_\_\_ YES **If yes, please describe the data mining function:**

11. Is this a national security system (as determined by the SecD)?

\_\_\_\_\_ NO

\_\_\_\_\_ YES

12. Status of System/ Project:

\_\_\_\_\_ This is a new system/ project in development.

## II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?
2. Has the system/project undergone any significant changes since April 17, 2003?

\_\_\_\_\_ NO [If no, proceed to next question (II.3).]

\_\_\_\_\_ YES If yes, indicate which of the following changes were involved (**mark all changes that apply, and provide brief explanation for each marked change**):

\_\_\_\_\_ A conversion from paper-based records to an electronic system.

\_\_\_\_\_ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

\_\_\_\_\_ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

\_\_\_\_\_ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

\_\_\_\_\_ A new method of authenticating the use of and access to information in identifiable form by members of the public.

\_\_\_\_\_ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

\_\_\_\_\_ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

\_\_\_\_\_ A change that results in a new use or disclosure of information in identifiable form.

\_\_\_\_\_ A change that results in new items of information in identifiable form being added into the system/project.

\_\_\_\_\_ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

\_\_\_\_\_ Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

\_\_\_\_\_ NO \_\_\_\_\_ YES

If yes:

a. *Provide date/title of the PIA:*

b. Has the system/project undergone any significant changes since the PIA?

\_\_\_\_\_ NO \_\_\_\_\_ YES

**I. INFORMATION ABOUT THE SYSTEM / PROJECT**

1. Provide a general description of the system or project that includes: (a) name of the system/project, including associated acronyms; (b) structure of the system/project, including interconnections with other projects or systems; (c) purpose of the system/project; (d) nature of the information in the system/project and how it will be used; (e) who will have access to the information in the system/project; (f) and the manner of transmission to all users.

The systems used by the FBI to manage and track its supply chain processes for purchasing goods and services, including assets on hand, are outdated and insufficient. To better manage the FBI's growing number of assets, new supply chain management functionality is required, including: (1) an integrated asset management system to value and track assets throughout their useful lives (2) an improved ability to manage vendor interactions, and (3) new data collection devices to facilitate inventory processes.

The current asset management systems used by the FBI include the Property Management Application (PMA), the Vehicle Management Application (VMA), the Fixed Assets Module (FA) and Issued Personal Property (IPP) system. Specific information and purpose of each system is summarized below:

b7E

Each is a separate system, over 20 years old, with a different architecture. As a result, these first generation systems contain numerous add-on enhancements and are not as efficient or flexible as more modern systems with updated capabilities, and fail to provide the functionality needed to maintain a robust process and improve accountability.

Additionally, the current system structure spreads various asset types across several systems, requiring multiple interfaces, duplicative asset entry, significant manual reconciliations between systems and delayed processing. The current system landscape is summarized below. Please note this is a working document subject to revision.

b7E

The Finance Division (FD) seeks to mitigate these issues through the deployment of a new Supply Chain Management (SCM) Program via three core projects (only Project 1 is intended to be covered by this PTA, Projects 2 and 3 will have additional privacy paperwork as necessary during their development and implementation).

1. Project 1 – Project Aikman

- Objectives: Replace the Property Management Application (PMA), Vehicle Management Application (VMA), Fixed Asset (FA) Module and Identifiable Personal Property (IPP) application with one Commercial Off the Shelf (COTS) Asset and Fleet Management Solution, IBM's Maximo software.
- Estimated deployment: Limited pilot (tentatively 3-5 FOs and an undetermined number of HQ division participation) in FY 11 Q4. A full FBI-wide deployment is scheduled to begin November 2011.
- Software: Maximo (IBM). Note this is the base software platform for which Project 2 and Project 3 software will be added.

b7E

b7E

To ensure each project is optimally positioned to achieve its objectives, FD will be initiating a staggered approach to project implementation. In other words, Project 1 (which will be referred to as Project Aikman throughout this document) will be the first rollout of FD's new SCM model, followed by 

Please note the following:

- ◆ Project Aikman is replacing PMA, VMA, FA module and IPP systems with one central asset management system (IBM's Maximo). After historical information from legacy systems is transferred to Maximo (scheduled for FY 12 Q3), the legacy systems will be shut down and slated for the system retirement process.

b7E

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

     NO

  X   YES     [If yes, please continue.]

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.

(Check all that apply.)

  X   The information directly identifies specific individuals.

The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

The information can be used to distinguish or trace an individual's identity (i.e., it is linked or linkable to specific individuals).

**If you marked any of the above, proceed to Question 4.**

None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly.

4. Does the system/project pertain only to government employees, contractors, or consultants?

NO  YES

The only information contained within this program that does not pertain to government employees, contractors, or consultants is in the case of a vehicle accident involving an FBI vehicle and a non-FBI individual or vehicle. In the case of such an incident, the name and contact information for the non-FBI individual would be maintained within the Vehicle Management files.

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

NO. [If no, skip to question 7.]

YES. [If yes, proceed to the next question.]

6. Does the system/project collect any information directly from the person who is the subject of the information?

NO [If no, proceed to question 7.]

YES

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

NO

YES [If yes, proceed to question 7.]

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

NO [The program will need to work with PCLU to develop/implement the necessary form(s).]

Some of the forms have a Privacy Act (e)(3) statement, but others do not so the program is working with PCLU to ensure that all the forms have such a statement.

YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

NO  YES If yes, check all that apply:

SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

SSNs are necessary to identify FBI personnel in this internal administrative system.

SSNs are important for other reasons. Describe:

The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

A unique user-name and password are required for access to the Maximo program. Without approval, an FBI employee will be unable to access Maximo. All users are assigned specific roles commensurate with their job responsibilities and not all users will have access to the PII maintained in Maximo. Where one's job responsibilities warrant access to view another employee's PII, the system will allow this.

It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

No.

\_\_\_\_ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

NO If no, indicate reason; if C&A is pending, provide anticipated completion date: This is a new system and is currently undergoing the the C&A process. The anticipated completion date is mid-June 2011.

\_\_\_\_ YES If yes, please indicate the following, if known:

Provide date of last C&A certification/re-certification:

Confidentiality: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

Integrity: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

Availability: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

\_\_\_\_ Not applicable -- this system is only paper-based.

10. Is this system/project the subject of an OMB-300 budget submission?

\_\_\_\_ NO

YES If yes, please provide the date and name or title of the OMB submission: An OMB-300 budget submission is planned for the spring budget submission (05/18/2011)

11. Does the system conduct data mining as defined in Section 804 of the Implementing Recommendations of the 9/11 Commission Act of 2007, P.L. 110-53 (codified at 42 USC 2000ee-3)?

NO

\_\_\_\_ YES If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?

NO \_\_\_\_\_ YES

13. Status of System/ Project:

X This is a new system/ project in development.

**II. EXISTING SYSTEMS / PROJECTS**

1. When was the system/project developed?
2. Has the system/project undergone any significant changes since April 17, 2003?

..... NO [If no, proceed to next question (II.3).]

..... YES If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

..... A conversion from paper-based records to an electronic system.

..... A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

..... A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed. (For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

..... A change that results in information in identifiable form being merged, centralized, or matched with other databases.

..... A new method of authenticating the use of and access to information in identifiable form by members of the public.

..... A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

..... A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

..... A change that results in a new use or disclosure of information in identifiable form.

..... A change that results in new items of information in identifiable form being added into the system/project.

..... Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

..... Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

..... NO ..... YES

If yes:

a. Provide date/title of the PIA:

b. Has the system/project undergone any significant changes since the PIA?

..... NO ..... YES

2. Does the system/project collect, maintain, or disseminate any information about individuals (i.e., a human being or natural person, regardless of nationality)?

NO [If no, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval. Unless you are otherwise advised, no PIA is required.]

YES [If yes, please continue.]

3. Please indicate if any of the following characteristics apply to the information in the system about individuals: Bear in mind that log-on information may identify or be linkable to an individual.

(Check all that apply.)

The information directly identifies specific individuals.

UNCLASSIFIED

\_\_\_\_\_ The information is intended to be used, in conjunction with other data elements, to indirectly identify specific individuals.

\_\_\_\_\_ The information can be used to distinguish or trace an individual's identity (i.e., it is linked or linkable to specific individuals).

**If you marked any of the above, proceed to Question 4.**

\_\_\_\_\_ None of the above. If none of the above, describe why the information does not identify specific individuals either directly or indirectly. **[If you checked this item, STOP here after providing the requested description.]**

4. Does the system/project pertain only to government employees, contractors, or consultants?

\_\_\_\_\_ NO      \_\_\_\_\_ YES

5. Is information about United States citizens or lawfully admitted permanent resident aliens retrieved from the system/project by name or other personal identifier?

\_\_\_\_\_ NO. **[If no, skip to question 7.]**

\_\_\_\_\_ YES. **[If yes, proceed to the next question.]**

6. Does the system/project collect any information directly from the person who is the subject of the information?

\_\_\_\_\_ NO **[If no, proceed to question 7.]**

\_\_\_\_\_ YES

a. Does the system/project support criminal, CT, or FCI investigations or assessments?

\_\_\_\_\_ NO

\_\_\_\_\_ YES **[If yes, proceed to question 7.]**

b. Are subjects of information from whom the information is directly collected provided a written Privacy Act (e)(3) statement (either on the collection form or via a separate notice)?

\_\_\_\_\_ NO **[The program will need to work with PCLU to develop/implement**

UNCLASSIFIED

UNCLASSIFIED

the necessary form(s).]

\_\_\_\_\_ YES Identify any forms, paper or electronic, used to request such information from the information subject:

7. Are Social Security Numbers (SSNs) collected, maintained or disseminated from the system/project? Full SSNs should only be used as identifiers in limited instances.

\_\_\_\_\_ NO \_\_\_\_\_ YES If yes, check all that apply:

\_\_\_\_\_ SSNs are necessary to establish/confirm the identity of subjects, victims, witnesses or sources in this law enforcement or intelligence activity.

\_\_\_\_\_ SSNs are necessary to identify FBI personnel in this internal administrative system.

\_\_\_\_\_ SSNs are important for other reasons. Describe:

\_\_\_\_\_ The system/project provides special protection to SSNs (e.g., SSNs are encrypted, hidden from all users via a look-up table, or only available to certain users). Describe:

\_\_\_\_\_ It is not feasible for the system/project to provide special protection to SSNs. Explain:

8. Is the system operated by a contractor?

\_\_\_\_\_ No.

\_\_\_\_\_ Yes. Information systems operated by contractors for the FBI may be considered Privacy Act systems of records. The Federal Acquisition Regulation contains standard contract clauses that must be included in the event the system collects, maintains or disseminates PII and additional requirements may be imposed as a matter of Department of Justice policy. Consultations with the Office of the General Counsel may be required if a contractor is operating the system for the FBI.

9. Has the system undergone Certification & Accreditation (C&A) by the FBI Security Division (SecD)?

\_\_\_\_\_ NO If no, indicate reason; if C&A is pending, provide anticipated completion date:

\_\_\_\_\_ YES If yes, please indicate the following, if known:

UNCLASSIFIED

UNCLASSIFIED

Provide date of last C&A certification/re-certification:

Confidentiality: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

Integrity: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

Availability: \_\_\_Low\_\_\_Moderate\_\_\_High\_\_\_Undefined

\_\_\_\_\_ Not applicable -- this system is only paper-based.

UNCLASSIFIED

UNCLASSIFIED

10. Is this system/project the subject of an OMB-300 budget submission?

\_\_\_\_\_ NO

\_\_\_\_\_ YES If yes, please provide the date and name or title of the OMB submission:

11. Does the system conduct data mining as defined in Section 804 of the Implementing Recommendations of the 9/11 Commission Act of 2007, P.L. 110-53 (codified at 42 USC 2000ee-3)?

\_\_\_\_\_ NO

\_\_\_\_\_ YES If yes, please describe the data mining function:

12. Is this a national security system (as determined by the SecD)?

\_\_\_\_\_ NO

\_\_\_\_\_ YES

13. Status of System/ Project:

\_\_\_\_\_ This is a new system/ project in development. [If you checked this block, STOP. The PTA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

II. EXISTING SYSTEMS / PROJECTS

1. When was the system/project developed?

2. Has the system/project undergone any significant changes since April 17, 2003?

\_\_\_\_\_ NO [If no, proceed to next question (II.3).]

\_\_\_\_\_ YES If yes, indicate which of the following changes were involved (mark all changes that apply, and provide brief explanation for each marked change):

\_\_\_\_\_ A conversion from paper-based records to an electronic system.

\_\_\_\_\_ A change from information in a format that is anonymous or non-identifiable to a format that is identifiable to particular individuals.

\_\_\_\_\_ A new use of an IT system/project, including application of a new technology, that changes how information in identifiable form is managed.

UNCLASSIFIED

UNCLASSIFIED

(For example, a change that would create a more open environment and/or avenue for exposure of data that previously did not exist.)

\_\_\_\_\_ A change that results in information in identifiable form being merged, centralized, or matched with other databases.

\_\_\_\_\_ A new method of authenticating the use of and access to information in identifiable form by members of the public.

\_\_\_\_\_ A systematic incorporation of databases of information in identifiable form purchased or obtained from commercial or public sources.

\_\_\_\_\_ A new interagency use or shared agency function that results in new uses or exchanges of information in identifiable form.

\_\_\_\_\_ A change that results in a new use or disclosure of information in identifiable form.

\_\_\_\_\_ A change that results in new items of information in identifiable form being added into the system/project.

\_\_\_\_\_ Changes do not involve a change in the type of records maintained, the individuals on whom records are maintained, or the use or dissemination of information from the system/project.

\_\_\_\_\_ Other [Provide brief explanation]:

3. Does a PIA for this system/project already exist?

\_\_\_\_\_ NO \_\_\_\_\_ YES

If yes:

a. Provide date/title of the PIA:

b. Has the system/project undergone any significant changes since the PIA?

\_\_\_\_\_ NO \_\_\_\_\_ YES

[The PIA is now complete and after division approval(s) should be submitted to FBI OGC/PCLU for final FBI approval and determination if PIA and/or other actions are required.]

**FINAL FBI APPROVAL / DETERMINATIONS / CONDITIONS:** [This section will be completed by the FBI PCLU/PCLO following PTA submission. The PTA drafter should skip to the next page and continue.]

PIA is required by the E-Government Act.

PIA is to be completed as a matter of FBI/DOJ discretion.

Is PIA to be published on FBI.GOV (after any RMD FOIA redactions)?  Yes.  No (indicate reason):

PIA is not required for the following reason(s):

System does not collect, maintain, or disseminate PII.

System is grandfathered (in existence before 4/17/2003; no later changes posing significant privacy risks).

Information in the system relates to internal government operations.

System has been previously assessed under an evaluation similar to a PIA.

No significant privacy issues (or privacy issues are unchanged).

Other (describe):

Applicable SORN(s): DOJ/FBI-002/classification for administrative matters

Notify FBI RMD/RIDS per MIOG 190.2.3?  No  Yes--See sample EC on PCLU intranet website here:  
[http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form\\_for\\_miog190-2-3\\_ec.wpd](http://home/DO/OGC/LTB/PCLU/PrivacyCivil%20Liberties%20Library/form_for_miog190-2-3_ec.wpd)

SORN/SORN revision(s) required?  No  Yes (indicate revisions needed):

Prepare/revise/add Privacy Act (e)(3) statements for related forms?  No  Yes (indicate forms affected):

RECORDS. The program should consult with RMD to identify/resolve any Federal records/electronic records issues. The system may contain Federal records whether or not it contains Privacy Act requests and, in any event, a records schedule approved by the National Archives and Records Administration is necessary. RMD can provide advice on this as well as on compliance with requirements for Electronic Recordkeeping Certification and any necessary updates.

Other:

, Deputy General Counsel  
FBI Privacy and Civil Liberties Officer

Signature: Elizabeth Withnell
