	New Valid Voter Registrations	How are voter registration applications maintained?	How are checks done for duplicate registrations
There are few statutory restrictions but in general an individual personally-signed or marked hard copy is required. United States Electors may register by fax.	61,182 [19 of 56 counties, about 1/3, did not track this number. 1 county did not respond.]	Thirty-six counties said that they do both computer and paper registrations. Nine said they use just paper, but all enter the information in a computer. Almost all counties receive them by paper and enter their information into a computer. A handful of counties scan them in.	Answers to this question varied by county. They included name, birthdate, check system, manually, registration #, software does it, SS#, DL#, run duplicate records, voter cards, in house, signature, N/A, by hand, small county - know immediately.

Are there checks across state lines?	**What type of number is used for voter registration?**	**Are rejected applicants notified?**	**How many confirmation notices were sent?**	**How many responses were received?**	**How many voters were moved to inactive?**
No counties reported doing formal checks across state lines. However, other states do send cancellation notices to the counties, and MT counties send cancellations to other states.	Counties assign two numbers, one which is for the precinct register, and the other which is the Driver's license number or last four digits of Social Security.	Applicants are notified of the reason for rejection, generally through a phone call or letter.	271,708 [We assumed that this question included both the 1st and 2nd confirmation notices that are sent by MT law. About 10 counties answered "N/A" to this question.]	60,902 [12 counties answered "N/A" or unknown to this question. 1 county did not respond.]	73,344 [8 counties answered "N/A" to this question. 1 county did not respond.]

What process is used, electronic, or manual?	Who is responsible for list maintenance?	How does your state treat certain voters?	State subject to NVRA?	State revised the registration form?	What if certain questions not answered?
This varied widely, with about 23 counties doing both, and the rest split evenly between manual or electronic.	The counties are responsible. The Secretary of State's office passes on any cards received and all cancellations received from other states.	(a) only people who have been convicted of a felony and are incarcerated are ineligible. (b) only people who have been convicted of a felony and are incarcerated are ineligible. (c) after incarceration, rights are restored.	Yes.	Yes, the state included those questions on the form.	The applicant is contacted to provide the information. If not provided, card is rejected.
